The locking arm gate you have requested does not appear to be an "off the shelf" item. I can probably find someone to build one or contract a gate company from Durango to come up. Let me know of you would like me to pursue those options, or correct me if I'm making this harder than it really is. Thanks.

Subject: Security Gate - Gold King Rd

Matt,

Please source a gate to install at the Gold King mine access road. The gate needs to be wide clearance ( Locking Barrier Arm Gate ). Please plan on having the necessary supplies and gate installed by Wednesday, Sept

The need for 24 hr security is going to come to an end. We may want to maintain some presence during the day and into the early evening. We'll discuss this with the county in the near term, but once HW is here and set up and as visitor activity drops.

Steve
